

LEAD EDUCATION

EPA/DE Lead Dust Sampling Technician: Initial \$225

This course was developed by the U.S. EPA, in collaboration with the U.S. Department of Housing and Urban Development (HUD), to teach contractors how to conduct non-abatement lead dust clearance testing under EPA's Renovation, Repair, and Painting (RRP) Rule and clearance examinations under HUD's Lead Safe Housing Rule.

Lead Renovation, Repair, & Painting (RRP): Initial \$225

EPA's Lead Renovation, Repair and Painting Rule (RRP Rule) requires that firms performing renovation, repair, and painting projects that disturb lead-based paint in homes, child care facilities and pre-schools built before 1978 have their firm certified by EPA (or an EPA authorized state).

Lead Renovation, Repair, & Painting (RRP): Refresher \$125

The Lead-Based Paint Renovation, Repair and Painting (RRP) rule is a federal regulatory program affecting anyone who disturbs painted surfaces where lead may be present. Any contractor, including renovators, electrician, HVAC specialists, plumbers, painters and maintenance staff, who disrupts more than six square feet of lead paint in pre-1978 homes, schools, day care centers and other places where children spend time must be Lead-Safe Certified.

ASBESTOS EDUCATION

Asbestos DE Project Monitor: Refresher \$225

This course is for individuals who perform supervision of persons permitted to enter the restricted asbestos abatement work areas. This program reviews critical topics associated with asbestos abatement activities, as well as responsibilities of the competent person for the asbestos project, consistent with current regulations.
